

# SEDGEMOOR NEWSLETTER

Sedgemoor Crematorium Newsletter

Summer 2017

## Welcome,

This is the first of a quarterly newsletter from Sedgemoor Crematorium. The aim of the newsletter is to provide an update regarding the continual changes and improvements to the site and how these improvements will benefit the families and congregations who attend the services.

### A little about Sedgemoor Crematorium

Sedgemoor Crematorium opened in October 2013 and has recently held its 3000th service in June 2017, supplying an essential service to the people of Bridgwater, Burnham-on-Sea and beyond. The chapel seats 91 people with further standing room and has a very modern look on both the inside and outside.

Sedgemoor Crematorium is managed by the Westerleigh Group, a prestigious crematoria company, well renowned for its quality of not only building crematoria but for exceptional services for the bereaved .

### In This Issue

- New waiting room
- Brand new memorial options
- Grounds improvements
- Future Plans
- Feedback

**New waiting room, built in December 2016.**

## **New Waiting Room**

In response to a major demand for more waiting space following a number of large congregations at services, Sedgemoor have installed this brand new waiting room. It has been very well received by the public, especially in recent months.

## **Gardens of Remembrance**

We now have an extensive range of memorial options on site, over the past few months we have had 7 new roses gardens, 12 small family circles and 6 medium family gardens installed here on site. Initially, they have been very well received and are adding much needed structure to the grounds.

The new 2017 Memorial Brochure is now available and is full of new, exciting and innovative products to honour and remember loved ones.

If you are interested in receiving a brochure, please contact us using the details on the back page of this newsletter and we will be more than happy to post one out to you.

## Ground Improvements

If you've visited the site in the past few months, you will have noticed that there are a lot of improvements that have been made to the grounds.

Following the installation of the new memorials, the car park beds have been stripped back to provide a simple appearance with a welcoming atmosphere.

There have been 2 new pergolas installed at the site, these are a real focal point and have given the site some much needed structure.

**New Pergolas on site.**

# Future Plans

We have a lot of future plans for the site here at Sedgemoor, following our busy Spring season, there is work to do throughout the Summer. We have some bespoke trellis panels being erected, to provide some protection for the roses and a quiet and secluded area for which families can reflect on their loved ones.

Our pond is also due a makeover in July, being emptied, refilled and stripped back to provide an added area of tranquility within the grounds.

For those of you who have been to the site in previous winters, you'll be aware that the grounds sometimes flood and as a result some of the plants do not take very well to the grounds, this is to be rectified in mid-August when we have our new drainage system installed with the aim to provide a stable site all year round for visitors.

## Feedback

We welcome all feedback, both positive and negative and would be more than happy to receive feedback using any of the 'Contact Us' options.
